PROGRESS MADE SINCE THE FIFTH CONFERENCE

1. This report reviews briefly the progress made in the Islamic Republic of Iran, in connection with geographical names since the Fifth United Nations Conference on Standardization of Geographical Names was held at Montreal in 1987. The latter part of this period coincides with the years that the war with Iraq was still being waged, and scientific activities could not be expected to progress with speed. Nevertheless, activities in accordance with the United Nations programme for geographical names were continued uninterruptedly in those parts of the country that were away from war areas. Upon termination of the war in 1988, attention was focused on war stricken areas, mostly situated in the western provinces. During the period in question no less than 16 sheets of the 1:250,000 maps of the Islamic Republic of Iran, which are the basis of field studies, were systematically treated, as will be described below.

National standardization

2. The Central National Geographical Names Authority was reorganized under the new management of the National Geographical Organization. A number of new members, selected from among university professors and other qualified scholars, were added to the previous group. Soon after termination of the war, the pre-war Academy of Persian Language was reorganized under the new title of Academy of the Persian Language and Culture. The Geographical Committee of the newly created Academy covers a wide field of geography and associated sciences, such as geology, meteorology, cartography and many other Earth sciences. At present it meets once every two weeks at the National Geographical Organization headquarters and participates in the official treatment of geographical names. Plans are on the way to combine the two groups under a new status to be located within the National Geographical Organization.

3. A new village identification booklet was designed in which a large amount of geographical information, such as is required for overall development of the country and demanded by the computer age, has been included. The new booklet consists of nine pages as compared with six pages of the previous ones.

4. As indicated above, 27 sheets of the 1:250,000 topographical maps of the Islamic Republic of Iran were treated in the field with the result that, to date, out of 138 maps, covering the whole of the country, 124 sheets (i.e., 90 per cent) have been dealt with and only 14 sheets remain to be done (see figure).

5. In the course of the above field activities some 6,500 names have been filed and databased in the Organization's computer, bringing the total number of names to 44,000.

National gazetteer

6. During the period between the two conferences, 31 volumes were added to the number of printed gazetteers bringing the number to 109. The added volumes comprise a total of 6,000 pages. Since it is envisaged that the series will ultimately include some 138 volumes, it can be said that to date no less than 90 per cent of the work has been completed.

7. Apart from the above volumes, which have been prepared by the National Geographical Organization, about half a dozen gazetteers of different nature have been circulated by private and official firms among which the most notable is the Gazetteer of Villages and Religious Places of Iran, by M. H. Papoli Yazdi of Ferdowsi University, Mash' had (1989). This bulky volume of 700 pages contains 65,989 geographical names, all with geographical coordinates and elevation as well as pertinent administrative information. The volume includes dozens of tables, graphs and maps that provide geographers with valuable information.

Geographical atlases

8. The National Geographical Organization has published a Farsi version of the Readers' Digest World Atlas which is a resourceful reference book, not only for geographers and professionals but, also for all intelligent seekers of geographical information in our changing world.

9. The National Geographical Organization is presently engaged in the preparation of a great atlas of Islamic history which, once completed, will not only serve Iranian readers, but will be of interest in all Muslim countries.

10. Numerous atlases for all stages of educational activities have been prepared by the well-known cartographical institutes, Sahab and Gita-Shenasi. These atlases are utilized not only in the Islamic Republic of Iran but in all Farsi speaking countries of the region.

11. Work on the national atlas is under way but so far no sheets have been released.

Exonyms

12. The National Geographical Organization has prepared a revised version of the exonyms used in the Farsi language. This includes all the world's countries and their capitals (see annex I). This volume will be printed shortly along with additions showing salient geographical features of the world and their usage in the Farsi language.

Changes in geographical names

13. The impact of the Islamic revolution on geographical names has continued to exist although at a slower rate. On the other hand the eight years' war between the Islamic Republic of Iran and Iraq has been a great impetus on changes in geographical names. A list of changes that have occurred since the last conference is appended here as annex II.

14. In addition to the above changes in the existing geographical names, the Irano-Iraqi war has resulted in the creation of a considerable number of new settlements with entirely new names. Such names often refer to war-stricken and devastated areas where new and rehabilitated places grew up after the war ended. To indicate the magnitude of the issue, a list of such new names is shown here as annex III.

Regional activities

15. The fourth regional meeting of the Asia South-West Division, other than Arabic, was convened in Tehran in January 1989, full report of this meeting that was arranged upon the initiative of the Islamic Republic of Iran is appended here as annex IV.

16. The fifth regional meeting has been invited for July 1992. This meeting will also take place in Tehran, and a report will be presented at the Sixth United Nations Conference for Standardization of Geographical Names.

Annex I

THE WORLD'S COUNTRIES AND THEIR CAPITALS

Note: the following guide is used throughout the list:

(1) Native name of country

(2) Persian name of country

(3) English name of the capital

(4) Persian name of the capital

AFGHANISTAN
---
(1)-AFGHANISTAN — افغانستان
(2)-AFQANESTAN

(3)-KABUL
(4)-KABOL — کابل

ALBANIA
---
(1)-SHQIPERIA
(2)-ALBANI — آلبانی

(3)-TIRANE
(4)-TIRANA — تیرانا

ALGERIA
---
(1)-ALGERIA — الجزایر
(2)-ALJAZAYER

(3)-ALGER(ALGIERS)
(4)-ALJAZIRE — الجزیره

ANGOLA
---
(1)-ANGOLA — آنگولا
(2)-ANGOLA

(3)-LUANDA — لواندا
(4)-LUANDA

ANTIGUA AND BARBUDA
---
(1)-ANTIGUA AND BARBUDA — آنتیگوا و باربودا
(2)-ANTIGUA VA BARBUDA

(3)-SAINT JOHNS — سنت جونز
(4)-SAINT JANS

ARGENTINA
---
(1)-(LA)ARGENTINA — آرژانتین
(2)-ARZANTIN

(3)-BUENOS-AIRES — بوینس آیرس
(4)-BOYNES-AYRES

AUSTRALIA
---
(1)-AUSTRALIA — استرالیا
(2)-OSTRALIA

(3)-CANBERA — کانبرا
(4)-KANBERA

AUSTRIA

(1)-OSTERRICH — اتریش
(2)-OTRIS

(3)-WIEN (VIENNA) — وین
(4)-VIEN

AZERBAIJAN

(1)-AZERBAIJAN — آذربایجان
(2)-AZARBAYJAN

(3)-BAKU — باکو
(4)-BAKU

BAHAMAS

(1)-(THE)BAHAMAS — باهاماس
(2)-BAHAMA

(3)-NASSAU — ناسائو
(4)-NASAO

BAHRAIN

(1)-(AL)BAHRAIN — بحرین
(2)-BAHRAYN

(3)-AL-MANAMAH — منامه
(4)-MANAME

BANGLADESH

(1)-BANGLADESH — بنگلادش
(2)-BANGLADES

(3)-DACCA — داکا
(4)-DAKA

BARBADOS

(1)-BARBADOS — بارباداوس
(2)-BARBADOS

(3)-BRIDGETOWN — بریج‌تاون
(4)-BRIJTAON

BELARUS

(1)-BELARUS
(2)-BELARUS(RUSIYYEYE SEFID) — بیلوروسی (روسیه سفید)

(3)-MENSK
(4)-MENSK — منسک

BELGIUM
----
(1)-BELGIE OR (LA)BELGIQUE — بلژیک
(2)-BELZIK

(3)-BRUXELLES(BRUSSELS) — بروکسل
(4)-BRUKSEL

BELIZE
------
(1)-BELIZE — بلیز
(2)-BELIZ

(3)-BELMOPAN — بلموپان
(4)-BELMOPAN

BENIN
-----
(1)-BENIN
(2)-BENIN — بنین

(3)-PORTONOVO
(4)-PORTONOVO — پورتونو

BHUTAN
------
(1)-BHUTAN
(2)-BUTAN — بوتان

(3)-PARO AND THIMBU
(4)-TIMFU — تیمفو

BOLIVIA
----
(1)-BOLIVIA
(2)-BOLIVI — بولیوی

(3)-LAPAZ
(4)-LAPAZ — لاپاز

BOTSWANA
----
(1)-BOTSWANA
(2)-BOTSVANA — بوتسوانا

(3)-GABORONE
(4)-GABERON — گابرون

BRAZIL
------
(1)-BRAZIL
(2)-BREZIL — برزیل

(3)-BRASILIA
(4)-BRAZILIA — برزیلیا

BRUNEI
---
(1)-BRUNEI
(2)-BRUNEYI — برونئی

(3)-SERIBEGAVAN
(4)-SERIBEGAVAN — سری‌بگاوان

BULGARIA
---
(1)-BALGARIJA
(2)-BOLQRESTAN — بلغارستان

(3)-SOFIJA(SOFIA)
(4)-SUFYYA — صوفیه

BURKINAFASO
---
(1)-BURKINAFASO
(2)-BURKINAFASO — بورکینافاسو

(3)-WAGADUGU
(4)-WAGADUGU — واگادوگو

BURUNDI
---
(1)-(EL)BURUNDI
(2)-BORUNDI — بروندی

(3)-BUJUMBURA
(4)-BUJUMBURA — بوجومبورا

CAMBODIA
---
(1)-CAMBODIA
(2)-KAMBOJ — کامبوج

(3)-PHNUMPENH
(4)-PENUMPEN — پنوم‌پن

CAMEROON
---
(1)-CAMEROON
(2)-KAMERON — کامرون

Annex IV

REPORT OF THE FOURTH REGIONAL MEETING OF S.W.ASIA DIVISION UNITED NATIONS CONFERENCE FOR STANDARDIZATION OF GEOGRAPHICAL NAMES

INTRODUCTION

Upon invitation of the Islamic Republic of Iran , the fourth regional meeting of S.W.Asia Division was held in Tehran between January 7th. to January 9th.1991, in the premises of the National Geographical Organization.

The inauguration ceremonies took place at 9. a.m.on 7th Jan.in the main reception hall of the Officer Club.University professors,representatives of cartographical and geographical institutes and members of the Iranian Central Geographical Names Authority were present.The Director of the Geographical Organization welcomed the participants in the meeting and other invited guests. He then gave an outline of history and activities of the Geographical Organization, and the part that the organization had in the rehebilitation and reconstruction of the Islamic Republic of Iran after its eight years war.

The main speaker at the inaugural ceremonies was Engineer Akbar Torkan, Ministry of Defence, who also welcomed the participants. Mr. Turkan then made brief statements on the various phases of development of human civilization and concluded his statements by emphasizing the role of informations in present world community .He pointed out that geographical names whether appeared on maps or in the newspapers and other mass media were an important means of communication and therefore deserved every attention.He referred to the project implemented,some quarter of a centuary ago,by the U.N. in connection with the standardization of geographical names throughout the world and emphasized the importance of the work of the Fourth Regional Meeting in promotion of the United Nations aims and objectives. He concluded his statements by wishing the participants success in their deliberations .

/...

PARTICIPANTS

The S.W Asia Division of the United Nations Conference for Standardization of Geogrphical Names include all countries of the area excluding the Arabic speaking countries . The Division covers Farsi and Urdu speaking countries as well as those that use Farsi script in thier maps. Normally it includes Iran,Afghanistan and Pakistan but at the Fourth Regional Meeting delegates from USSR,and particularly Farsi speaking Republic of Tajikestan were also invited.This invitation was received favourably and delegates from the USSR and Tajikestan participated as observers . The meeting expressed hope that, in future, the observer delegates will attend as active members.A detailed list of paricipants is attached here to as annex No.1.

LANGUAGE OF THE MEETING

In view of the fact that majority of the participants comprehended Farsi,it was originally envisaged that all business of the meeting be conducted in Farsi. However, upon request of one delegate who apparently was not a master of Farsi language, it was agreed that English be the official language, Consequently most of the business was conducted in English , although Farsi had to be inevitably used on certain occasions .

CONDUCT OF BUSINESS

The meeting had altogether 10 business sessions. Dr. Mohammad Hassan Ganji,Professor Emeritus (geography) of Tehran University and presently acting as geographical advisor to the Director of the Geographical Organization,was in the chair throughout the sessions .The first three sessions were devoted to the approval of the agenda and submission and discussion of the national reports. Dr. Ganji submitted a fairly long report which dealt partly with a brief history of the divisional activities and partly with what was done in the Islamic Republic of Iran after the termination of war with Iraq.

The delegates of Pakistan and Afghanistan submitted brief written and verbal reports respectively.The remaining session of the meeting were almost exclusively assigned to the discussion of translitiration systems in use in member countries. Needless to say that the main aim of the meeting was to come up with a system as simplified as possible, both in respect of alphabetical length and common usage, in all countries concerned. No time was lost on the discussion of alphabetical signs that were exclusive to any one country . Therefore,most of the discussions, that sometimes turned to be arguements, were centred on the signs that had a common usage. In the course of the discussion several proposals were submitted by Dr. Mostafa Moqarrabi, Iranian Linguist and philologist. These proposals could not be accepted by delegates from Pakistan and Afghanistan before consulting their home authorities . The delegate from Pakistan, in particular, argued that alteration of a well - established system of transliteration with which all map - users have become familiar without any difficulty or confusion,will not be practicable.He added that introduction of new signs will therefere not serve the purpose of this meeting . He made proposals that are attached hereto along with Dr. Moqarrabi's remarks as annex No. 2 . The delegates were requested to take the proposals back to their respective offices and have them put to discussion . They were further requested to let Dr.Ganji know ,in due course,if their countries approved of the proposed changes so that they may be included in the final report that is to be submitted to the coming session of the United Nations Group of Experts on the Standardization of Geographical Names . A complete list of approved systems duly signed by all delegates is attached hereto as annex No. 3.

/...

HOSPITALITY

The director and officers of the Geographical Organization showed warm hospitality during the entire stay of the delegates in Tehran.Visits were arranged for the participants to enable them to see places of interest such as the magnificent tomb and musoleum of the late Emam Khomeini .

RESOLUTIONS

In the course of its deliberations the Fourth Meeting of the S.W.Asis Division of the United Nations Conference for the Standardization of Geographical Names resolved that:

1- The meeting appreciated with much gratitude, the invitation and hosbitalities of the Islamic Republic of Iran and the formation of the meeting in Tehran .

2- In view of the tremendous importance of geographical names both as a means of communicating information and widening the scope of general knowledge of the society and, as a factor in economic developments, all countries of the region should continue to collect, process and propagate, geographical names as called for by the guidelines provided by the United Nations Group of Experts on the Standardization of Geographical Names .

3- The representative of the Islamic Republic of Iran in the United Nations Group of Experts or the Standarization of Geographical Names , being the sole link between the countries of the division and the body in question , should prepare a comprehensive report about the progresses in the region , to be submitted to the future session of the UNGEGN and the fourth coming Sixth UNCGN.

4- To enable the above representative to prepare his comprehensive report , all delegates present at the fourth meeting are required to send to him thier national progress reports within the next six months.

LIST OF PARTICIPANT

AFGHANISTAN

Ghulam Jelani,President of Remote Sensing , At the Head office of Geodesy and Cartography,KABOL

IRAN

GANJI, Dr, Mohammad Hassan, Professor Emeritus, Tehran University , Geographical Advisor, Geoggraphical Organization , Chairman of the Geographical Name Authority.

GHARIB,Dr.Abdolkarim, University Professor, Geologist , member of the Central Geographical Names Authority.

MIR HAIDAR, Dr. Dorreh, University Professor, member of the Central Geographical Names Authority.

MOQARABI, Dr. Mostafa, University Professor, Linguist Phylologist, member of the Central Geographical Names Authority.

MOHAMMADI, Nasser, Director,Geographical Information Dept. Geographical Organization, member of the Central Geographical Names Authority.

PAKISTAN

SYED MAQBOOL SHAH, North Circle Survey of Pakistan, Peshawar, Pakistan.

USSR

DMITROCHENKOV Head Geodesist , Main Administration of Geodesy and Cartography., MOSCOW.

ISHANOV MUZAFAR, General Director of "Tadzikaerokosmogeodezija" Dushanbe, Tadzikistan .

MUHABBATOV,KHOLNZAR, Academician of Science, Dushanbe, Tadzikistan.

PRESENTATION BY PAKISTAN REPRESENTATIVE.

It was agreed in the Regional meeting of Pakistan-Iran held in 1974 that:-

i. There was no difference in the transliteration of 23 letters of both the alphabets of Urdu and Persian and complete agreement can be reached if the macrons and cedellas are removed from the transliteration of homophones on 7 letters in the Persian language.

ii. Three letters and eleven aspirated consonants in Urdu alphabets which do not exist in Persian alphabets will continue to be transliterated in Pakistani system.

iii. Insertion of accents on last letters of words ending with a,i,u. like Bābā which are at present being omitted and written as Bābe in Pakistani system will be considered by Pakistan.

iv. The words which are pronounced differently in two languages will continue to be transliterated according to their existing systems.

It was agreed in the Regional Meeting of Pakistan, Iran and Afghanistan held in 1977 that all the three countries have the same system of transliteration for most of the letters whereas there is difference between them in some of the letters mostly due to the reason that such letters are not common for all the three countries and partly due to the reason that they are pronounced differently in different countries. It was decided that the efforts shall be made by the respective countries to minimise the existing differences in the transliteration of names as far as practicable for consideration during the subsequent conference.

In this connection Pakistan has studied the respective systems of Iran & Afghanistan in comparison with its own and has chalked out the following suggestions for bringing about conformity where difference in alphabets for transliteration of various countries exists. These are as follows:-

	Pakistan	Iran	Afghanistan	
1.	Ch	Ch	C	چ

Afghanistan may follow Pakistan and Iran. Indian transliteration is also Ch for چ.

In English Chance, Much etc are also available.

2.	Kh	Kh	X	خ

Afghanistan may follow Pakistan and Iran. Indian transliteration of خ is also Kh.

3.	d	d.		ض

Afghanistan may follow Pakistan, As India also transliterates it as d. This will bring us closer internationally.

/...

4.	r	r.		ط

Afghanistan should change in favour of internationally recognised transliteration being practiced in the Sub-continent. Moreover dots confuse Cartographer. Indian transliteration is also r.

5.	Zh	Zh	Z	ژ

Afghanistan may change in favour of Pakistan & Iran.

6.	SH	SH	S	ش

Afghanistan may follow the other two countries. Push, Hush etc, are found in English & we need not make new equivalents.

7.	Gh	Gh	G	غ

Afghanistan should change in favour of Pakistan and Iran as in Ghost or Afghanistan.

8.	en	-n	-n	تنوین

Iran & Afghanistan may consider our version.

9.	i	e	i	زیر

Not much difference in pronunciations with e. Iran may however consider to change in favour of Pakistan & Afghanistan as in bit, kit, etc.

10.	U	O	U	پیش

Iran may change in favour of Afghanistan & Pakistan as in put, pull etc.

11.	$\bar{U}$	U	$\bar{U}$	واؤ معروف

Iran may change in favour of Pakistan & Afghanistan.

12.	W	V–	$\bar{a}$	واؤ مجہول

Iran & Afghanistan may follow Pakistan.

13.	$\bar{i}$	$\bar{i}$	i	ی معروف

Afghanistan may change in favour of Iran & Pakistan.

14.	-i-	-ye	-yi	کسرِ اضافہ

All three countries should consider and try to agree on to one equivalent.

4. r r. ڑ

Afghanistan should change in favour of internationally recognised transliteration being practiced in the Sub-continent. Moreover dots confuse Cartographer. Indian transliteration is also r.

5. Zh Zh Z ژ

Afghanistan may change in favour of Pakistan & Iran.

6. SH SH S ش

Afghanistan may follow the other two countries. Push, Hush etc, are found in English & we need not make new equivalents.

7. Gh Gh G غ

Afghanistan should change in favour of Pakistan and Iran as the words Ghost or Afghanistan.

8. an -n -n تنوین ن

Iran & Afghanistan may consider our version.

9. i e i زیر

Not much difference in pronunciations with e. Iran may however consider to change in favour of Pakistan & Afghanistan as in bit, kit, etc.

10. U O U پیش

Iran may change in favour of Afghanistan & Pakistan as in put, pull etc.

11. Ū U Ū واؤ معروف

Iran may change in favour of Pakistan & Afghanistan.

12. W V– ō واؤ مجہول

Iran & Afghanistan may follow Pakistan.

13. ī ī i ی معروف

Afghanistan may change in favour of Iran & Pakistan.

14. -i- -ye -yi کسرِ اضافہ

All three countries should consider and try to agree on to one equivalent.
